

Rangers Valley, a premium global beef brand is recruiting for a Livestock Manager that has a passion for high quality performing cattle with the genetic traits required to underpin the suite of Rangers Valley's brands.

The Rangers Valley business, specialises in the production of high quality long fed beef both Angus and Wagyu from;

- Feeder cattle procurement incorporating cattle agistment.
- Feedlot operations with the iconic Rangers Valley Cattle Station and feedlot situated on the northern tablelands of NSW.
- Meat processing under contract.
- Global sales and marketing.

#### **About the role**

Reporting to the Managing Director, the purpose of the role is to lead the livestock procurement function within the business. Direct, purchase, inspect and coordinate livestock supply to meet required demand schedule for cattle intake into the feedlots. Lead and develop livestock performance based value transactions and performance monitoring. The role location preference is within proximity to Glen Innes, NSW where the main operations are located, but can be regionally based and therefore will require regular travel to headquarters.

#### **Responsibilities include but not limited to:**

- Fostering relationships with long term Rangers Valley producers.
- Purchase of livestock, directly and through a team of livestock buyers company and commission.
- Working with industry bodies.
- Development and supply of producer feedback system.
- Completion of livestock input and commentary to all feedlot intake plans.
- Physical review and coordination with RV Property Manager on all cattle either holding or backgrounding on RV properties.
- Performance data review, completion of various monitors and reports.
- Cattle system, support as required data collection and accuracy thereof information.
- Administration including purchase orders, invoicing and reports.

### **Qualifications, Skills, and Experience:**

Applicants for this position should have the following skills and attributes:

- Experience in leading a large team and working with a large stake holder group.
- Good organisational and communication skills.
- Sound industry knowledge with experience in livestock transactions and movements.
- Ability to identify and procure livestock that meet company specifications.
- Strong analytical skills in being able to analyse performance data.
- Ability to work in a team environment being part of a vertically integrated supply chain with team members and valued stakeholders.

An attractive remuneration package including a car would be offered based on skill and qualifications of the successful applicant.
